

Respect

is about being heard, being cared for, and being treated like you're the only one who matters.

At Health Partners, people join our health plan because they know they will be treated well. That's what makes Health Partners one of the Philadelphia area's leading Medical Assistance health plans. In fact, Health Partners has been ranked first among HealthChoices plans in Southeastern Pennsylvania in member satisfaction with plan, and satisfaction with child's plan (Consumer Assessment of Health Plans 2006 report). Health Partners also placed 40th nationally among Medicaid plans ranked by *U.S. News & World Report* in 2007.

Health Partners is the health plan that provides a full array of benefits and services, plus something that's just as important – we treat our members with respect.

Our plan provides all the benefits of Medicaid, including health care services such as:

- Primary care doctor and specialist office visits
- Hospital services
- Lab services
- Prescriptions
- Routine eye and dental care for members under 21

Health Partners also helps its members stay healthy with such extra benefits as:

- Fitness center membership
- Weight Watchers® membership
