9 Current Utilization Summary Data is based on claims data incurred from January 2009 through December 2009 paid through present.
Current Access & Quality Summary Rates are calculated using HEDIS® measures based on 2009 claims.
Previous Utilization Summary Data is based on claims data incurred from July 2008 through June 2009 paid through present.
Previous Access & Quality Summary Rates are calculated using HEDIS® measures based on 2008 claims.

PCP Profiles

Key Data Elements

- 1** Member Count: Panel size must be 100 members or more to qualify for a report.
- 2** Current Utilization: Rate calculated using the most recent HEDIS scores as described in #1, based on the reporting period.
- 3** Previous Utilization: Rate calculated using HEDIS scores from the previous reporting period.
- 4** Peer Sites Utilization: Represents the current rate for all PCPs in the category.
- 5** Quality Measures: Measures marked with an "*" have an associated Provider P4P incentive.
- 6** Current Quality Performance: Rate calculated for each measure using HEDIS specifications for the reporting period.
- 7** Plan Quality Performance: Represents the overall Health Partners HEDIS rate for the current reporting period.
- 8** HEDIS Percentiles: Current national Medicaid rates based on the NCCA Quality Compass, published annually.
- 9** Profile Period: Our PCP Profile is run and distributed twice yearly, in January and June. The January 2010 report contains data from the most recently reported HEDIS rates, from calendar year 2009. The June 2010 report will contain data from the most recent HEDIS plan year, up to April of 2010.
